
technical rider BOMBEE

requirements:

1. professional PA system
2. monitors on stage switched OFF, IF there are additional musicians (see below): monitors for them
3. 4x power socket on the desk
4. table on stage, dimension: 1m x 2m, height: at least 1m (my back hurts...)
5. 1 regular mic stand
6. LCD video projector: 16,7 million colors, SVGA (800x600 pixels), min. 2000 ANSI lumen, MAC compatible, input: VGA (D-sub 15 pin) or DVI, cable to the projector on the desk
7. screen for video projection, 4:3 ratio, location: behind the stage

equipment Bombee:

- Soundcraft mixing board, balanced outputs: 2x XLR
- 1x audio interface (RME), own monitoring (in-ear + headphones)
- 1x MacBook Pro
- controllers: 1x iPad, 1x Novation Launchpad, 1x Novation Nocturn
- microphone: 1x Neumann KMS 105
- **additional instruments, depending on the lineup of the show (ask beforehand, they need some space on stage): drums, bass guitar, guitars, synths, stage pianos etc.**

Thank you!
